

Conference Technology

Conference website: <http://www.nifc.gov/fireandsagegrouse/>

Live-streaming of all sessions: By visiting <http://new.livestream.com/accounts/10631879/sagegrouseandfire>, you can see and hear all the conference presentations and panels, and Friday breakout sessions, as they occur. There will be an opportunity to "chat" with other online viewers. These live-streamed sessions will be recorded for later viewing.

MindMixer Dialogue: You can also engage in a collaborative dialogue and/or provide feedback and input before and after the sessions by visiting <http://nextsteppe.mindmixer.com/>. MindMixer requires a quick registration using your email address or by connecting through your existing social media accounts. You can comment on/evaluate other participants' ideas, as well as submit your own.

Ground rules: Please engage in a positive, constructive manner. To help ensure this, our moderator for both the Livestream chat and MindMixer dialogue will promptly remove profanity and/or disrespectful or personal attacks from the online dialogue. Participants who continue to exhibit this behavior may be blocked from further online participation.

If you have any technical issues during the conference with live-streaming or MindMixer, please contact Ray Outlaw, Conference Facilitation Team, at routlaw@enviroissues.com.
